

Instrument Panel

- The instrument panel blends an arrangement that emphasizes a horizontal spaciousness with a vertical flow along its center area, in order to portray a sporty image.
- Metallic paint and hairline grain have been applied to the escutcheon, console garnish, and heater control panel in order to express a premium image.
- Shut-fin type side registers are used. Their surface becomes flush when they are closed, thus achieving a simple and streamlined design.
- An illumination is provided for the cup holder in the center console.
- The console door in the center console is covered with the urethane form in order to achieve a soft touch.
